OBJECTIVE

An experienced professional adept at navigating the intersections of software engineering, big data administration and DevOps engineering seeking opportunities to leverage diverse technical skills and insights gained across roles to drive innovation and efficiency in web development projects.

SKILLS

Technical Skills   React, Javascript, Node, Express, Git, CI/CD, AWS, Docker, Kubernetes, Big Data

EXPERIENCE

Software Engineer   Nov 2022 - Present
Freelance   *Remote*

- Designed and developed responsive web applications using React JS frameworks, ensuring optimal performance and user experience across various devices and browsers.
- Implemented UI/UX design principles to create aesthetically pleasing interfaces, resulting in improved user engagement and satisfaction.
- Contributed to the development of web applications using React JS, HTML5, CSS3, and JavaScript, ensuring high-quality code and adherence to project requirements.
- Conducted comprehensive code reviews to maintain code quality and adherence to industry best practices, identifying areas for improvement and implementing necessary changes.
- Utilized version control systems such as Git to manage codebase and streamline collaborative development efforts.
- Conducted performance optimization techniques to enhance application speed and efficiency, improving overall user experience.

DevOps Engineer   Nov 2021 - Oct 2022
CBSI GLOBAL   *Remote*

- Configure deployment pipelines using CI/CD tools such as Jenkins, GitHub Actions to automate the deployment process.
- Deploy applications to cloud-based platforms such as AWS ensuring scalability, reliability and security.
- Monitor application performance, up time, and resource utilization using monitoring tools and implement optimizations as needed.

Data Engineer   Oct 2018 - Nov 2021
EC Mobility Pvt. Ltd.   *Aurangabad, India*

- Experienced in installation, configuration, supporting and managing Hadoop Clusters using different distribution like Apache Hadoop, Cloudera Enterprise and HDP distributions.
- Coordinated with fellow teams including development, QA, infrastructure, network and database to achieve effective resolution to complex problems.
- Followed Best practices for preparing and maintaining Enterprise Hadoop Clusters in production.

EDUCATION

Bachelor of Engineering, Dr. BAMU   2017
Information Technology
